## MESSAGE OF SUPPORT TO SECTION27 ON THEIR LAUNCH

On behalf of the leadership, staff and members of the Treatment Action Campaign, I would like to congratulate SECTION27 on its launch and wish it everything of the best in the future.

TAC and the AIDS Law Project have enjoyed a particularly close partnership, which has been central to the successes that were achieved in social mobilisation, policy development and service delivery.

Despite the successes that have been won to date, the challenges involved in extending equitable access to appropriate health care to all are enormous – and there is a need now more than ever for the strengthening of civil society.

We continue to regard our relationship with ALP, and now SECTION27, as one of our key strengths – and we look forward to taking this partnership to new levels going forward.

We have no doubt that, with its broader focus, SECTION27 will have an even greater impact on promoting health and other human rights, and deepening democracy in South Africa. We wish every success.

VIVA SECTION27!

Stephen Harrison
